I can not really decide on my favorite Wings of Fire couple. I love them all. Glorybringer would have such cool looking dragonets! I am also full on for Winterwatcher though I think they are a little to young for dragonets. Same with Turtlejou. Cleril is also sounds amazing. Peril has been waiting so long for Clay, she deserves him. Starspeaker I always knew would happen. We knew that when Starflight first became blind. Ripnami also would be great although I must say that it is a little boring that they will have pure SeaWing dragonets. Hybrid is a little cooler. I feel sad that Moonbi never happened. Quibi must be so sad. I am eagerly waiting for the theory for Sunny. Tell me if you have any ideas.
